The Greatest

Adapted by Neilor Tonin, URI Brazil

Timelimit: 1

Make a program that read 3 integer numbers and print the greatest one using the following formula:

$$MaiorAB = \frac{(a+b+abs(a-b))}{2}$$

Input

The input file contain 3 integer numbers.

Output

Print the greatest of these three values followed by a space and the message “eh o maior”.

Sample Inputs	Sample Outputs
7 14 106	106 eh o maior
217 14 6	217 eh o maior
